# OEM-Quality Products

## Time-Tested, Proven To Perform

Kent Automotive knows what it takes to drive your business.

It starts with delivering a full line of OEM-quality products – a combination of time-tested and innovative formulations proven to perform. We get to know your operation, understand your product usage, and anticipate your needs at every turn. Then, we show you how to boost productivity – and profitability – by providing profit-enhancing tools and ongoing training.

Kent Automotive partners with you to achieve the ultimate goal of running an ultra streamlined and service-focused business.

## We're Your Partner In Profitability.

### OEM Approved and OEM Recommended

Kent Automotive products that are OEM Approved are tested by an OEM manufacturer or laboratory and can be used for off-line repairs.

Kent Automotive products that are OEM Recommended are tested and meet a quality standard required for repair.

### Optimized Inventory Management

Kent Automotive's optimized inventory management system ensures the products you need are on hand and stocked according to your usage by your Kent Representative. We get to know your operation, understand your product requirements, and anticipate your needs at every turn.

### Profit-Enhancing Tools

Kent Automotive helps you boost productivity and profitability. Our proprietary PROS Profit Enhancement Tool® is compatible with all major estimating systems and interfaces with the CCC ONE® Management System.

### Complimentary In-Shop Product Clinics and Product Safety Training

Ensure the correct and effective use of products with training and in-shop clinics to support our full line of products. Technician, supervisor and office staff training is done in your shop, on your schedule.
