Welcome to CARS

Founded in 1992 by six independent body shop owners from across the United States, CARS Cooperative was created with a simple goal: **level the playing field for independent collision repair businesses.**

These founding shop owners understood the challenges of running an independent business while competing with larger corporate providers. They saw an opportunity to use the collective buying power of independent shops to secure better pricing, stronger vendor relationships, and resources that could help businesses remain profitable and successful.

More than 30 years later, that mission remains at the heart of CARS Cooperative.

As a stock-based cooperative, CARS brings independent collision repair facilities together with trusted vendors to provide access to cash rewards, exclusive CARS pricing, and valuable business resources. Members benefit from the collective strength of the cooperative while maintaining ownership and independence in their own businesses.

Through owner equity and program rewards, CARS creates a mutually beneficial relationship between members, vendors, and the cooperative—helping independent shops save money, strengthen their businesses, and stay competitive in an ever-changing industry.

Driven by Purpose.

MISSION

To stand behind the independent automotive repair businesses that keep our industry moving. CARS brings shop owners and trusted industry partners together to provide the savings, resources, and support needed to deliver the highest quality automotive repair while protecting the independence, strength, and future of the businesses our members have worked so hard to build.

VISION

To build a stronger future for independent automotive repair—where shop owners have the resources, relationships, and collective strength to compete, grow, and remain independent. We envision an industry where quality repair, strong businesses, and independent ownership go hand in hand, allowing today's shop owners to build a legacy that can carry forward for generations.

sikens
AkzoNobel

FASTER THROUGH THE BOOTH.
FLAWLESS OUT THE DOOR.

Sikens Autowave® Optima and Autoclear® 2.0 work together as part of a complete premium refinish system—helping body shops increase throughput, improve efficiency, and deliver exceptional finish.

Why This System Matters

Today's collision centers are under constant pressure to move more vehicles through the shop while maintaining premium repair quality. The Sikens Autowave Optima + Autoclear 2.0 system is engineered to help shops improve process efficiency, optimize booth productivity, and deliver exceptional gloss, clarity, and appearance with every repair.

CARS Cooperative

Enhanced Rental Solutions for CAR Members

Hertz is proud to support CARS Members by providing an enhanced rental service model designed specifically for your collision shop. Together, we help you deliver a seamless customer experience while unlocking new revenue opportunities for your business.

- ✓ Even when the insurance company directs the rental through Hertz
- ✓ No additional operational burden
- ✓ Turn rentals into Revenue

Turn Every Rental into Revenue

2% commission for 1-10 rentals per month.

4% commission for 11-20 rentals per month.

6% commission for 21+ rentals per month.

1% performance BONUS for incremental Year over Year per month.

**Cannot combine with other payment programs*

Best of all, Hertz will handle the reporting of expenditures directly to CARS. Also, your shop gets credit from Hertz if the insurance companies provide Hertz Rentals.

If you have any questions on this program, please reach out to John Edmison at Jedmison@hertz.com

Good Questions. Straight Answers.

Is there a catch?

No! CARS negotiates with trusted vendors to help collision repair businesses save money. If you're already purchasing from participating vendors, you could be earning CASHBACK on purchases you're already making.

Do I have to switch my jobber?

Not at all. You can continue working with jobbers you already know and trust. We reach out to your jobber and request purchase data for some of our programs. Other programs, we get directly from the vendor. Everything happens behind the scenes so you can focus on the work in your shop.

Is it difficult to sign up?

No. Enrollment is straightforward, and the CARS team will help every step of the way. If you are already a member of one of our state Association Alliances, you just need to complete a form! If you want a direct CARS membership, you just need to complete a form and to make the one-time \$500 purchase of stock.

Will I save enough to make it worthwhile?

Yes. While every shop is different, many members receive CASHBACK checks throughout the year while taking advantage of exclusive pricing programs. The more participating programs you use, the more opportunities you have to save.

Do I have to use every program?

No. Choose the programs that fit your shop's needs. There is no requirement to participate in every program. CARS was designed for you to customize your needs and choose from our vast list of CASHBACK and Savings programs.

Can I still work with my current vendors?

Yes! CARS wants to complement your existing purchasing habits, not replace them. Our programs are constantly growing. We believe in your independence and our goal is to support you in any way we can!

ALL YOU NEED IS ONE

The **asTECH® All-In-One** - the most comprehensive collision repair solution.

“

We've been a partner of AsTech, driven by Repairify, for several years. Being an OEM certified collision repairer, we rely on AsTech's All-In-One device to maintain our certified status and ensure we're returning every vehicle to OEM standards.

**Perrie Stone, President and Owner
Hammer's Autoworks**

Scan

The patented and proprietary asTech® Rules Engine powers the All-In-One's diagnostic capabilities. For 45+ OEMs, you're able to choose an OEM diagnostic scan or a verified asTech® OEM-Compatible Scan - an OEM quality scan at an aftermarket speed and price.

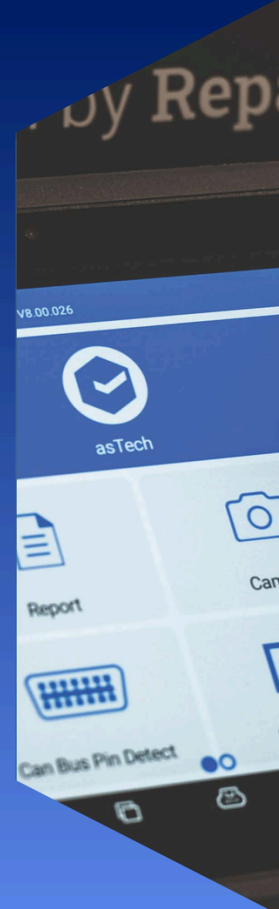

Calibrate

The All-In-One® uses adasThink to identify all required calibrations based on the estimate line items and provides the required documentation, all in real time in the estimate with EMS integration.

Program

The All-In-One remotely connects with asTech® master technicians and certified technicians to clear codes, program modules, and provide step-by-step assistance to complete any repair.

Merchant Cost
Consulting

**Your Processing Fees May Be Higher
Than They Need to Be**

Credit card processing statements can be complicated—and small fees can add up quickly.

Merchant Cost Consulting reviews your statements to look for:

Hidden Fees

Unnecessary Charges

Inflated Rates

Unexpected Rate Increases

Merchant Cost Consulting then works directly with your existing processor to negotiate lower costs on your behalf.

No switching. No disruption. Just a closer look at what your already paying.

Used by collision shops, car dealers and automobile enthusiasts everywhere, our precision laser-cut adhesives are guaranteed to fit your existing automotive badges and emblems perfectly.

Adhesive Templates are for the re-use of OEM emblems and nameplates.

Members receive 3% CASHBACK REWARD on all purchases!

“After 30 years as a body shop owner and 4 successful business exits, I know firsthand how exhausting the grind of running a business can be. But what frustrated me most during my journey wasn’t the long hours or the tough negotiations—it was the tax and financial systems that seemed stacked against hardworking shop owners like us. Let’s build something extraordinary together.”

-Bill Park
